

WHAT'S ALL THE FUSS ABOUT MASKS?

Face coverings are now "mandatory" on public transport and domestic flights in Levels 1 and above, but is this the right solution?

DID YOU KNOW?

Typical mask wearing does not reduce SARS-CoV-2 infection rates (COVID-19).

SARS-CoV-2 viral particles are tiny and can easily pass through mask fibres.

Up to 98% of viral particles may pass through cloth masks!

Masks have been shown to cause hypoxia (deprivation of adequate oxygen).

More than 1.5 BILLION face masks will pollute the oceans this year!

A mask exemption is available to anyone with a physical or mental health illness, condition or disability that makes wearing a face covering unsuitable.

Do you qualify for a MASK EXEMPTION?
